WELDING

**VAW**

# innovation days 2024

practical solutions for industrial production

25. - 26. / 9-16:00  
SEPTEMBER

ROBOTEC, VAW WELDING a VAW, Hlavná 3, Sučany

## We would like to invite you

to a professional event featuring practical demonstrations and presentations of the latest technologies not only in automation and robotics.

## Program

8:15 AM – 3:00 PM: Ongoing participant registration.

9:00 AM / 1:00 PM: Short presentation and speech by Lukáš Vallo MSc. – CEO / Ing. Ivan Vallo – founder.

9:30 AM – 4:00 PM: Practical demonstrations of innovative manufacturing technologies with expert commentary.

## Partners

## Technologies

- Create a process simulation before it's too late.
- No more assembly errors! Argued reality will help you.
- The autonomously navigating platform takes the robot to where you need it most.
- Would you like a coffee? Our robotic assistant will be happy to prepare it for you.
- Have you ever programmed a welding or grinding collaborative robot? It's time you tried it!
- Do you know what orbital welding is? Automating pipe welding has never been easier.
- A flexible AGV cart can transport your product without the need for a conveyor.
- Learn to program a robot with a photograph of the workpiece.
- ...and many more.
